

## Sexual Harassment in the Workplace

In *Sexual Harassment in the Workplace*, behavior awareness is the focus of the course. Students will learn how Title VII of the Civil Rights Act of 1964 defines sexual harassment. Through a series of scenario examples, students will be engaged in identifying conduct that could be considered unwelcome or inappropriate. Two forms of harassment will be explained: quid pro quo and hostile environment. Students will be given some steps they should follow if they feel they are victims of sexual harassment. They will also be encouraged to focus on their own actions and consider how those actions may be perceived by others.
